Barbecue for a Good Purpose.

The good people of the vicinity of Mount Aetna are awake to the importance of good schools and good school houses. Their school building is getting old and they have determined to build a nice new one. They have made arrangements for a grand barbecue on Saturday, July 18th, the proceeds to be used in building a new school house. They have invited Hon. E. D. Walker to deliver a lecture on education and he has consented, also Prof. W. Alexander and McHenry Rhoads have accepted invitations to attend. Mr. F. L. Felix, Superintendent of the County Schools, has also been invited. In short they have arranged to give education a big boost that day. A beautiful walking cane will be voted to the most popular gentleman present, and a fine gold ring to the most popular lady in attendance. Let's all go and have a splendid time.

The Show.

Wallace & Co.'s circus showed here on the 4th of July, a large crowd attending. Notwithstanding the size of the crowd, everything passed off very orderly. There were several detrimental reports circulated here about the honesty of some of the men connected with the circus and we had the idea that they were a set of thieves and cut-throats, but they proved themselves to be gentlemen. Mr. Al Field, as a clown, has but few equals and no superior. The Wertz Bros., in their acrobatic feats, were just splendid; the Lee Bros. in their specialty as contortionists cannot be beat; the tumbling was good; the trapeze performance was well executed, and Mlle Lavelly, the iron-jawed woman, did all that the bills represented her to do. On the whole it was a splendid performance and we would recommend them to all towns in which they may show.

Polo.

The polo contests at the Rink last week were very animated and tolerably well played. On Friday night a large crowd witnessed the game between Simon Small's and James Anderson's chosen quint, in which Simon's side overcame the other by obtaining three out of five goals, notwithstanding the defeated company had the valuable aid of a Louisville expert rusher. The boys are fast learning to put up a creditable game; barked shins and cracked pates are not near so frequent occurrence as they were a month or so ago. The interest in polo is growing among our burghers. The girls chiefly are caught by it; one good-looking and graceful maiden went so extravagantly far as to vow she wouldn't chew any more taffy for a whole year if they'd let her play polo just once.

Don't.

Throw your money away on worthless mowing machines. Go to Ford's and give him your order for a Champion, that has stood the test at the hands of the best farmers in the county for twenty years. Every year it gets better. The improved is the lightest draught machine on wheels. Send in your orders early. J. W. FORD.

Baptist Associations.

The Blackford Association of Baptists will meet with the Fordville church in Ohio county, Wednesday before the second Sunday in August, and the Davies County Association will meet with Brushy Fork church, Tuesday after the second Sunday in August.

Church Social on Friday Night.—The next church social will be at the residence of Mr. H. D. McHenry, Friday night. Music and recitations will add a pleasing variety to the entertainment. All who are willing to help the ladies repair the Methodist church are cordially invited to attend.

Them Turkeys Again.

SUTTON, JULY 3d, 1885.

After reading the able defense in regard to "Unjust Charges," the idea struck me that the main point at issue is as much a myth as it was before; for in the agent's reply from Shelbyville to agent at Beaver Dam, he speaks of turkeys and uses the pronoun them, leaving the general reader to infer that there might have been half a dozen of them.

I have in my possession a receipt bearing date December 18, 1883, for transportation on one turkey in box, showing the charges to be thirty cents from Shelbyville to Louisville, and from Louisville to Beaver Dam, fifty cents, making a total of eighty cents. Now the question arises, have rates been changed? or have the agents been falling to discharge their duty by not collecting over-riding their duty by collecting too much? The express rate is the same, length of road same, why so much difference in the charges? as there was only seven pounds difference in weight. I only received one turkey March 11th, 1885, and the agent at Shelbyville speaks of turkeys in his communication to agent at Beaver Dam. I am bound to conclude that he has got things slightly mixed.

Leaving the facts as they are to the many readers of the HERALD, to solve the problem if they can, I am,

Very Respectfully,
MRS. CALLIE W. GORDON.

Items From Rockport.

July 6, 1885.

Editor Herald:
Mrs. Applegate and Mrs. Chandler, of West Point, Ky., are visiting their sister and aunt, Mrs. V. M. Warden.

Uncle Jim Williams is sick again. Miss Belle Anthony, of Paducah, is visiting her sister, Mrs. Morehead.

Mrs. David Miller, of South Carrollton, visited her niece here last week. Mr. Charles Hendrie has reached a depth of 45 feet in his shaft. He will soon reach the coal.

Mr. Eddie Evans, of Russellville, is visiting her aunt, Mrs. Georgia Bentley, and her sister, Miss Beulah Morrow.

Mr. and Mrs. Haden went to Elizabethtown to see relatives last week, and returned Sunday.

Mr. Tom Renter has the finest team of three-year-old mules I have ever seen driven in Rockport. He is hauling his Burley tobacco to be shipped from this point.

Miss Ida Reid, after paralyzing a few of the young men's hearts, left last week for her home near Kuttawa.

Mr. Nat Wise, of Waxahachie, Texas, arrived here on the 2d. Uncle Dan went to the train to meet him, but did not know him. Mr. Wise left here about 30 years ago. He is a thriving farmer, and smokes just one cigar a year.

An instance of remarkable vigor in old age was reported to me recently. Mrs. Elizabeth Dexter is 80 years old, and last week she walked from her home to Centertown, a distance of three miles, and carried a large market basket full of vegetables and a bucket containing two dozen eggs, without stopping to rest.

You know I told you Mrs. Benson had gone down on the Cumberland. Well, I never knew till last week it was to spend a honey-moon.

Mr. Spurgeon Maddox lost a fine work mule last week, cause of death unknown.

The dogs are still killing the farmers' sheep.

Mrs. Agnes Gilmore, of Paradise, is visiting her aunt, Mrs. Cairns.

I never saw the farmers in so fine spirits. They deserve all they enjoy.

It is reported that 8,000 people reunited at Greenville, but that that number would have been an immense crowd. Mr. Bob Hendrie sold over 200 tickets at this office. The train going over was packed like sardine boxes. Seven coaches were in the returning train.

Love is almighty. Pluto came from dismal Hades itself to steal beauteous Proserpina. But tinkle, tinkle, tinkle—down with the curtains!

STEGGS.

String Ridge.

Farmers in this vicinity have been in quite a rush for a few weeks. Wheat is now in the shock, corn laid by, tobacco is worked over and we are having a few days of leisure and rest.

The class being instructed in vocal music by Messrs. Jos. Foster and Ladwene Barnett, at No Creek, is progressing finely. Success to the young gentlemen. There are many over in this country that need instructions in this accomplishment. A teacher for vocal music is wanted at Beta, also Thos. Taylor's school house and several other places I could mention.

Mr. Albert McCrocklin and Miss Mattie L. Graham, grand-son and grand-daughter of Aunt Rachel Bell, were married July 1st, 1885, at 6 P. M., at the residence of their grand-mother, where they contemplated making their future home. Moses Hudson, of Hartford, and Miss Nora Stevens, one of Ohio county's fair belles, were the attendants. Immediately after the ceremony, by Rev. Jo. Ad. Bennett, we were invited to a splendid supper given by the grand-mother and superintended by the bride's sisters. The occasion was a pleasant one, and I sincerely hope that in this union peace and harmony may reign supreme, and that friend Albert may seek to make Mattie, his companion, happy through life. The young couple have the best wishes of the writer.

I do not think this is the wedding "Mary Ann" was expecting; if not, we will still listen and look for another.

Wallace's Exhibition.

On Wednesday, June 10th, it was our pleasure to attend the School exhibition at Howell's church, gotten up by Prof. J. C. Wallace and his school. Prof. Wallace has been teaching at this place for 10 months, and as evidence of his acceptability the patrons have employed him for another ten months' term. His people speak well of him, and he deserves it, as he is one of our very best teachers. For the occasion they erected a stage in the rear of the school room and by dark nearly 500 persons of all ages and sexes had congregated to witness the performances of the children.

The Superintendent of the school made an address to the crowd upon the subject of education. The acting of the boys and girls was exceedingly well done. Space forbids our entering into detail, but suffice it to say that all acted well after parts assigned to them. It was after 12 o'clock before the performance closed. The Hanson brass band furnished music for the occasion. The whole thing was a success.—Madisonville Gleaner.

Winter is the Time to Buy Summer Goods.

Summer is the time to buy winter goods at a sacrifice, and here is a chance to prove it. On next Monday, July 13th, Anderson's Bazaar will mark down a big lot of worsted Dress Goods that have heretofore sold at 15c to 10c a yard, a lot of 25c Dress Goods to 15c, a lot of 20c Goods to 20c, &c. The above are desirable and handsome goods, in both summer and winter fabrics, are not damaged at all, and are sacrificed for the purpose of reducing stock and attracting custom. If you do not need them now, you will this winter. You will not have such a chance again. Call and see them.

S. W. ANDERSON, Prop.

Whitesville Items.

June 30th, 1885.

Editor Herald:
Knowing the support and realizing the interest that the people of Ohio county take in the upbuilding of our little town, I trust that a few items from here will not be out of place. As I have recently located here, I am, in the course of my observation, favorably impressed with the present state of affairs in this the most important place of its size in this part of Kentucky. I say most important, and will give you the reasons why it is the most enterprising town of its size in south-western Kentucky. Whitesville is located in the center of one of the best farming districts in Davies county. Her farmers probably do not farm as extensively as in some parts of the county, but they are as punctual in all their business transactions and are as well informed in matters pertaining to the general welfare of their community as can be found elsewhere. We have the best tobacco markets of any inland town in this part of the State. They only claim about seven hundred inhabitants, and there will be shipped from this point over a million pounds of tobacco, which has been purchased by the tobacco men of the town during the present season. We have six tobacco firms, who have paid out over \$50,000 here for tobacco this season, thereby scattering abroad the funds necessary to the development of the various interests of the town and vicinity. This was not the case ten years ago. All the tobacco raised in this part of Davies county was then delivered in Owensboro, and there the larger part of the proceeds was left in exchange for other necessary commodities, which can now be found here, but which were kept then only by the merchants of our county town. This new state of affairs has given new life to the mercantile interest here, and we now have four general stores, two groceries, one drug store, two millinery stores and other shops and offices necessary to the growth and prosperity of a town. We have a splendid flouring mill, under the control of Mr. G. H. Mullen, one of the superior mill men of the day. We have three churches—Campbellite, Baptist and Catholic. Two schools, one supported by the Catholics and the other by the Protestants. The public school, which has been under the efficient management of Prof. H. A. Smart for the past two years, will be taught the coming year by Miss Sallie Daily, a reputable teacher and a graduate of Lebanon, Ohio, Normal School, who will no doubt make the school interest here prosper.

Notwithstanding the public mourn the loss of our beloved Prof. Smart. He will be greatly missed in the church the prayer meeting, the Sabbath school and as a friend as well as in the school. He has gone to Cloverport from here to visit his old home, but will move with his family to the State of Texas in a few weeks, where he will be engaged in teaching. We predict for him a useful future and hope that his new friends can appreciate him as do his friends here.

Mr. G. W. Mullen, our miller, who has gone to an expense of about six hundred dollars in boring for coal here, found, after it was too late, that some evil-minded miscreant had poured a sufficient quantity of oil in the drill to awaken a lively mining desire in Mr. Mullen's mind, and thereby get a job of work, but after a great expense no coal has been found. Mr. Mullen has the sympathy of a large number of friends.

Mr. Geo. Tindal arrested a man by the name of Howard yesterday and proceeded to Owensboro with him. Howard is suspected as having been implicated in a robbery at Dixon, some time since. Mr. Tindal will endeavor to ascertain the facts in the case.

Mr. Charlie Shane, who has been on a trip to Florida for the last three weeks, returned home last eve.

Mrs. Joanna Hayes, of Owensboro, who has been visiting her parents, Mr. and Mrs. G. W. Mullen, returned to her home yesterday.

Misses Mattie Hale, Hattie Mattingly, Allie Litsay, Mollie Crow, in company with Messrs. R. L. Owen, W. May, T. J. Barnett & Junius Litsay, paid Haynesville a visit on last Saturday returning home Sunday eve. They were the guests of Dr. S. A. Gillespie and Mr. C. E. Haynes.

The Local Option question is being greatly agitated here at present and will be voted on at the August election. It is well supported and is to be hoped will take effect here. With such a temperance move here, we can hardly estimate the prosperity that awaits this people, and without which we are enabled to see the life-giving rays that inspire our citizens onward and upward towards the beacon of eternal prosperity, fast sinking in the distant horizon. It is hoped that all of our citizens will take action in this matter. More at another time. ELMO.

The Bible.

By 11 o'clock A. M., Sunday, June 28th, a large and good audience of people had assembled at Sergeant Remus T. Whittinghill Hall to hear the sermon on the Bible.

Rev. J. J. Keown read as an introduction the 10th chapter of St. John. The substance of this sermon was that the Bible contained the divine law of God; that it counseled and directed man in the way of the commandments of the Redeemer; that its teaching was the way of life and it warned man against the snares of the ungodly.

The reverend gentleman was unwell at the time, but preached a sermon that all will be profited by who follow his teachings. Rev. James Burton concluded the service in a short, but appropriate address. Before dismissal, the two ministers left an appointment for the 4th Sunday in July, at 11 A. M., Prof. F. G. Wilson's class in vocal music, of Fordville, arrived at the Hall at 10 o'clock and discoursed sacred music till the hour for preaching, and by invitation of the Post, they were invited to assist in the services on the 4th Sunday in July.
